Win £100

Take 30 minutes to complete this survey and you have a chance of winning £100

Individual Questionnaire

Please help to make the community a better place. This survey gives you the chance to communicate what you like and dislike about the local area and how you would like to see it improved. The results of this survey will be used to create an action plan. This plan will inform the Parish Council of the priorities of the local community. It will be used to influence South Gloucestershire Council's decision making and it will define how community action can make things better for us all.

As a thank you for taking the time to complete the survey you will be entered into a draw to win £100. The closing date for you to return your survey is Thursday, 12th July. The volunteer (see below) that delivered your survey should collect it. If not, please contact Alan Holder on 937 2818. The draw for the prize will be held at the Revel Photography Exhibition at 11:00 am on 30th September 2007 in the village hall.

Please be assured that your responses will be **completely anonymous**. Your contact details on the last page will be detached when they are collected by the person collecting the questionnaire. Your contact details will be used only for the prize draw and to contact you if you have asked for a follow up. Your contact details will **NOT** be kept or recorded against the survey answers.

This survey should take approximately 30 minutes to complete. You should not need to do any research to answer a question. You should be able to answer from the knowledge or the opinions that you already have. If you feel the question is not relevant to you or you find it difficult to choose options then **leave that question blank and move on.**

Most questions simply require a tick. Each question will clearly state what may be ticked. The symbol ❍ indicates that there is restricted choice and ❑ that there are multiple choices.

If you would like a large print version of this questionnaire, please contact Martin Smith on 937 4437

Background to the Plan

A Community Plan (also called a Parish Plan) brings together the views, needs and opinions of the whole community. It should be a holistic document, covering the social, economic and environmental issues of relevance to you and your neighbours. This sets out what is important, whether key facilities and services, or distinctive local character, and gives everyone a chance to guide future development. A concise action plan prioritises the issues raised, and sets out how they might be tackled. All Community Plans are different, as they are developed by each community in response to their own needs, using their unique skills and enthusiasm.

A Community Plan sets out what you need and what you value, based on the opinions of the whole community. It is a tried and tested tool that is being used by over 3,000 parishes. Community planning has proved itself as a successful way for rural citizens to make their voices heard and get things done locally. This can lead to improved relationships with principal authorities and service providers.

So far the top issues emerging nationally in Community Plans are:

- Road traffic
- Housing
- Facilities for young people
- Policing, law and order
- Inadequate public transport
- Local environmental concerns
- Inadequacy of specific village services

This is YOUR chance to make your voice heard and to shape the future of our area.

The plan for Pucklechurch, Shortwood, Parkfield and Lyde Green was initiated by the Parish Council in the December 2005 issue of *Pucklechurch News* when they asked for local residents to form a working group. A number of people responded and in March 2006 a Steering Group was formed. Since then there has been a small questionnaire, three public meetings (two in Pucklechurch and one in Shortwood) and numerous smaller meetings. This questionnaire is part of a larger survey that will form the basis for the Plan.

If you have any questions or would like to help in future activities, please call Alan Holder 937 2818 or Martin Smith 937 4437.
